MEMORANDUM FOR: Dr. Louis Tordella
Deputy Director, NSA

SUBJECT : CCP Manpower Distribution FY 65 - FY 70

While in the process of "cleaning house" preparatory to getting set for this year program reviews (CIP, CCP, etc.) I came across the accompanying chart "doodle" which I made up last year while going over the CCP.

The chart was never used as I decided it would be just "too busy" for use in briefings. In addition, my main concern is the ability to view all programs from a Community perspective and this requires that all data involved be commensurable. Until the other members of the Community produce data in the same "sub-element" form as in the CCP, the viewpoint I am seeking is very difficult.

I was about to toss the chart into the burn basket when it occurred to me that you or some of your people might find it of interest. Please feel free to use it or burn it.
